LAW LIBRARY
ARIZONA ATTORNEY GENERAL

Gentlemen:

In response to your request that we give an opinion as to the legality of a charge for travel expense of a proposed trip from Phoenix to Los Angeles for "Investigating Travel Bureau operations into Arizona and Tank Line Carriers".

The Corporation Commission is given authority under the law to supervise the operations of Travel Bureaus and Tank Lines operating in or into Arizona, and travel expenses necessarily incurred by the Commission in the performance of such duties is a proper charge against the State. If the proposed trip is necessary to the performance of such duties of the Commission, then the travel expenses incurred on the trip should be paid.

Very truly yours,

JOE CONWAY
Attorney General

EARL ANDERSON
Special Assistant
Attorney General.
